in Vrushali More

SKILLS

- Programming Languages: Java, Python, JavaScript, C++, HTML, CSS
- Frameworks & Libraries: React.js, Next.js, Express.js, TensorFlow
- Backend Technologies: Node.js, REST APIs
- Databases: MySQL, MongoDB
- AI/ML Tools: TensorFlow, Google Gemini Pro API, Generative AI
- DevOps & Tools: AWS, Docker, PuTTY, Git, GitHub
- Key Concepts: Object-Oriented Programming (OOP), Computer Networking, Scalable Systems, Cloud Deployments

EDUCATION

• B.E. in Computer Engineering

Government College of Engineering and Research, Avasari, Pune | CGPA: 8.4 (Expected 2025)

EXPERIENCE

❖ Full-Stack Web Developer Intern - Flare Global Soft, Nashik

January 2024 - February 2024

- Improved the efficiency of a MERN-stack web application's user interface by 30%.
- Optimized backend processing, reducing data latency by 40%.
- Enhanced database schema, achieving a 25% reduction in page load times.
- **❖ Full-Stack Developer Intern** − *Zealits Solutions*

November 2024 – Present

- Leading development of a real-time video calling application integrated with AI features.
- Utilizing AWS-Q and Docker for scalable and secure cloud deployment.
- Hands-on experience with AWS services and best practices for operational efficiency.

ACADEMIC PROJECTS

- Hotel Booking Application: Developed a user-friendly hotel booking platform using React.js, React
 Router DOM, JavaScript, CSS.
 GitHub Repo | Live Demo
- Text Converter: Created a text conversion tool with React.js, Node.js, Express.js, MongoDB for seamless data transformation.

 GitHub Repo | Live

Demo

• Omni Food App: Built a dynamic food ordering platform using React.js, Node.js, Express.js, MongoDB.

GitHub Repo | Live Demo

- Traffic Sign Detection: Designed a machine learning model for traffic sign recognition using SVM, TensorFlow, Keras, OpenCV, RCNN, Pillow.
- Fake PAN Card Detection: Developed a system for detecting fraudulent PAN cards with TensorFlow,
 OpenCV, OCR Tools, Django.
- E-Commerce App: Created a comprehensive e-commerce platform with React.js, Node.js, Express.js,
 MongoDB.
